Subject: Request for a List of Proposed, Threatened, or Endangered Species Potentially Occurring in the vicinity of the State Route 91 (SR-91) Corridor Improvement Project (CIP) in Riverside and Orange Counties, California

Dear Ms. Delk:

This letter is in response to your request, received by our office on August 26, 2008, for information on federally endangered, threatened, proposed, and candidate species that may occur in the vicinity of the SR-91 CIP Riverside and Orange Counties. To assist you in evaluating the potential occurrence of federally listed endangered, threatened, proposed, and candidate species that may occur in the vicinity of the proposed action, we are providing the enclosed list.

Because we do not have site-specific information for the proposed project, we recommend that you seek assistance from a biologist familiar with the habitat conditions and associated species in and around the project site to assess the actual potential for direct, indirect, and cumulative impacts likely to result from the proposed activity. We also suggest that you contact the California Department of Fish and Game regarding State-listed and sensitive species that may occur within the project area. Please note that State-listed species are protected under the provisions of the California Endangered Species Act.

As a reminder, if a proposed project is authorized, funded, or carried out by a Federal agency and may affect a federally listed species, then section 7 consultation pursuant to the Endangered Species Act of 1973 (Act), as amended, is required.

Elizabeth Delk (FWS-OR/WRIV-08B0733-08SL0892)

2

Should you have any questions regarding the species listed or your responsibilities under the Act, please contact Sally Brown of this office at (760) 431-9440, extension 278.

Sincerely,

A handwritten signature in black ink, appearing to read "Karen A. Goebel". The signature is written in a cursive style with a large initial "K".
